

Jake Brake®

Now

On Board...

At Leading Diesel Engine Distributors Across North America.

The fast lane to easy accessibility and service for Jacobs Engine Brake™ and Jacobs Exhaust Brake™ is now open at all truck and truck engine dealerships.

High-performing, world-famous Jake Brake products are now available at leading diesel engine distributors all across North America.

The folks who know diesel engine systems best can now provide you with all the dependable Jacobs replacement parts, in-depth technical support and knowledgeable administrative assistance you need. It's one sure way to keep your vehicles performing better, and on the road longer.

Follow the Jacobs route to your nearby diesel engine dealer and you'll know why over 70% of the new heavy-duty trucks in North America today have a Jake Brake product on board.

Jake Brake[®]

Technical Literature

NEW PRODUCTS:

Now that Jake Brake Products and Support are more integrated with your engine manufacturer's communication and distribution channels, most of your technical literature needs can be served the same way that any other engine component would. You can find **current and future** Jake Brake product service information inside your *engine service manuals and service bulletins*.

OLD PRODUCTS:

Additionally, you can obtain Jake Brake technical literature for **older** models from your engine manufacturer. However, the literature is not contained in the engine service manuals. The content can be found in Jake Brake-specific literature, available from your engine manufacturer, as detailed below.

For Caterpillar Engines:

Jake Brake[®] Retarders Product Reference Guide - Caterpillar Form RENR1370.

This guide contains:

- Brake Application Guide
- Jacobs-Caterpillar Part Number Cross Reference (also available separately - Caterpillar Special Instruction Form REHS 0245)
- Service Letters
- Specification sheets
- Parts and Installation Manuals
- Troubleshooting Information

For Other Engines:

For other engine manufacturer coverage of older Jake Brake products, contact your local dealer or distributor.

For Cummins Engines:

- C Brake by Jacobs Product Reference Guide-3698828
- C Brake/E Brake Application Guide - 3401804
- M11/M11 Plus/ISM engines: Parts Manual - 3698826 Installation Manual - 3698827
- N14 Plus engines: Parts Manual - 3698822 Installation Manual - 3698823
- N14 engines: Parts Manual - 3698824 Installation Manual - 3698825

Technical Literature for older product has been converted to electronic form and added to our web site, www.jakebrake.com.
